

## Lesson 9: Student Social Media Posts

Our young engineers have the chance to show off their creative skills through social media.

Engineers of the Future wants to see those project builds. These are some of our posts from before the COVID-19 pandemic.

You will be able to check out videos from your fellow engineers' while showcasing your STEM learning and projects.

Students can use their social media accounts for Facebook, Instagram and TikTok to provide Engineers of the Future with their posts and content.
